ACM SIGARCH TRAVEL SUPPORT FOR STUDENTS TO ATTEND ASPLOS-VII

ACM SIGARCH will provide a limited number of travel grants for student attendees of ASPLOS-VII in Cambridge, Ma October 1-4, 1996. You are invited to submit an application for travel support. Individual awards will be restricted to the cost of round trip jet economy air fare, or less, depending on the number of applications that will be accepted. Awards will be given with the following priority:

1. Student members of SIGARCH presenting a paper
2. Student members of SIGARCH co-author of a paper
3. Student non-members of SIGARCH presenting a paper
4. Student non-members of SIGARCH co-author of a paper
5. Student members of SIGARCH (unlikely there will be funds)

Applicants supported by other grants and contracts are expected to obtain travel monies from their supporting institutions. Since a limited number of awards will be made under this program, it is important that other sources be used where available.

Applications will be accepted until September 1, 1996 and award recipients will be notified by September 20, 1996. Documented conference registration and original travel expense receipts is required within one month of the end of the symposium. This material should be sent by award recipients to the Chair of SIGARCH. Travel grant recipients are determined by a selection committee without regard to race, color or national origin. The committee is chaired by the Chair of SIGARCH.

Return completed application form in e-mail to:
