Compressive Optics

Uniform or  
Directional Backlight

Stacked Layers  
(LCDs or Transparencies)

# Prototype – Tensor Display, SIGGRAPH 2012

# What do we mean by “glasses-free 3D”?

**binocular disparity**

**convergence**

**motion parallax**

**accommodation/blur**

← **current glasses-based (stereoscopic) displays** →

← **near-term glasses-free (light field) displays** →

← **longer-term holographic displays** →
