

Yes.

The games are excellent. Maybe we can talk about something new. ~~Evolution~~ We have learned evolution.

Yes!

Other comments: I think before the oral presentation you should ask the students to look up all the nine topic even glance is ok. Because ~~the~~ if we have no concept of the topic, ~~the~~ we will get confuse because of the new word, and sometime be absent minded.

Yes. we can have a new ^{page} composition of evolution. ^{pro} But due to the less time. we can't have more understanding of this course. ^{pro} school should give us more time. four days is less.

Yes,

it is ~~what~~ worthy
to spend a week
for this course, but
it is more suitable
for those who good
at English.

YES.

1. funny
2. know the system of evolution.
* and how evolution work in
computer.

Yes, I would like to

share my experience and

suggest my friends to take

this course. Time schedule can be better ~~to~~.

Yes.

Though I think the content

about this course should

be clarified with more

details before the course,

so that students may have

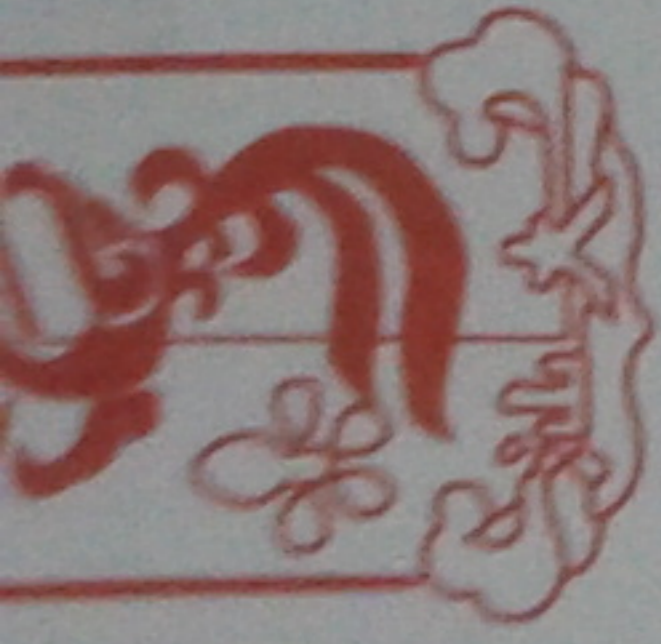

an impact of this course.

Yes.

Comments: ~~tit~~ Limit the time
of games

- Maybe a little
more about the
programming skills.

Yes, but the times are too
short! Maybe 2 or 3 week
would be better.

汕头大学

SHANTOU UNIVERSITY

Yes. I'll introduce this course to many friends and suggest them to take this course next year.

I'll give some ~~new~~ materials to them to let them know more about this course.

汕头大学

SHANTOU UNIVERSITY

Yes ~~but~~

Comments: I think we learn less about the evolution algorithm. We only know little thing.

汕頭大學

SHANTOU UNIVERSITY

Yes!

It's a course teach you that
how to learn rather than what to
learn.

The new styles: active learning'
(Think - Pair - Share) ~~is~~ did work

Yes

The course is very interesting
and it help me develop the vision of evolution

- Not cramming
- ~~not~~ in games
- happy relaxed

汕頭大學

SHANTOU UNIVERSITY

for engineering students: no, because it seems ~~to~~ it is not relative to programming. And these students are busy for other students: yes, they can practise English and learn more differently.

I hope that: the content you teach ~~the~~ would be ~~fastest~~. To be honest, we learn a lot about ~~fastest~~.

in high school. I thought that you should ~~things~~ And if you want to do better, I thought that you should

Programing and evolution. But the teaching method challenge me very much, I learn something differently.

Thank you for your smiling!!!

YES!

Attractive and fun!

Yes.

Maybe ~~we~~ you could give us more time
to study the theme.

Yes.

comment: I like this course, during it I not only learned phyllum and evolution process, but also expanded my worldview and the way of thinking.

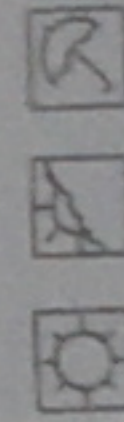

Yes, I would like to recommend it to my friend. Because the course teach me to see the world in a new angle, & it helps me a lot.

Yes,
This course tells me more about evolution which expands my world views. I'm glad to tell my friends.

Yes!

I like the relaxing way to pass knowledge. It is more easy for us to accept.

Yes

Mo Tu We Th Fr Sa Su

Memo No. /
Date / /

YES

You will never regret for attending this course! You will think a lot.

Laugh a lot and benefit a lot!

You will experience a totally different

lesson from any Chinese lessons.

— Harry.

Yes.

One week is a little short!

if the optional program ~~is~~ ~~is~~ ~~is~~ becomes easier, it will be better.
